C Haase

While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile

The Basic Chemistry of Acids and Bases.

File Type PDF Basic Chemistry

C Haase

A lot of chemistry requires you to understand the difference between acids and bases. An acid is a substance that donates an H^+ ion to another chemical species called a base. A base is a substance that accepts (combines with) an H^+ ion.. If you need to know the concentration of the H^+ ion in solution, you can do so by representing the H^+
