Coursework Hero - We provide solutions to students

During my school days in the lower secondary and secondary level, I thought mathematics is abstract because no picture of the problem and solution was made in the mind so it was difficult for construction of knowledge. For example we read and memorize the formula of algebra without knowing the value and link in the real life.

Cryptography, or cryptology (from Ancient Greek: κρυπτός, romanized: kryptós "hidden, secret"; and γράφειν graphein, "to write", or -λογία-logia, "study", respectively), is the practice and study of techniques for secure communication in the presence of adversarial behavior. More generally, cryptography is about constructing and analyzing protocols that prevent third ...
