CPU cooler. Stock fans are often loud, so get an aftermarket cooler instead. I've been using both Intel's and AMD's stock fans, and in principle they are okay to use. To have a truly silent HTPC you should replace the stock fan with an aftermarket cooler. Scythe Big Shuriken 2 or Noctua NH-L9 are great choices. Case fans

1. Working Smarter, Not Harder. Here's the secret about this SEO process: we don't want to rank for a single keyword, we want to rank for hundreds or thousands of keywords at the same time. We can do this with the exact same amount of work. Smarter, not harder. The magic happens when starting with keyword research.

ad-hoc network: 1. An ad-hoc network is a local area network (LAN) that is built spontaneously as devices connect. Instead of relying on a base station to coordinate the flow of messages to each node in the network, the individual network nodes forward packets to and from each other. In Latin, ad hoc literally means "for this," meaning "for ...
