If the transmission fluid is changed regularly (and high-quality fluid is used) a gearbox can easily last 240,000-320,000 kilometers (150,000-200,000). A manual transmission overhaul is needed if gears are starting to stick, you hear regular grinding or transmission chatter, or if the seals/bearings are leaking.

Maintaining Your Car at 100,000 Miles: Key ... - AxleAddict

A vehicle start-stop system or stop-start system automatically shuts down and restarts the internal combustion engine to reduce the amount of time the engine spends idling, thereby reducing fuel consumption and emissions.This is most advantageous for vehicles which spend significant amounts of time waiting at traffic lights or frequently come to a stop in traffic jams.
