1.14, the first release of Village & Pillage, is a major update to Java Edition released on April 23, 2019. It focuses mainly on villages, adding a new subset of illagers known as pillagers, and redesigns village architecture to match the biome it is located in. This update also introduces many new blocks and mobs, revamps the crafting system by moving some functionalities to different blocks ...

The \$1,000 genome refers to an era of predictive and personalized medicine during which the cost of fully sequencing an individual's genome is roughly one thousand USD. It is also the title of a book by British science writer and founding editor of Nature Genetics, Kevin Davies. By late 2015, the cost to generate a high-quality 'draft' whole human genome sequence was just below \$1,500.
