1.1 Income inequality. A thousand years ago the world was flat, economically speaking. There were differences in income between the regions of the world; but as you can see from Figure 1.1a, the differences were small compared to what was to follow.. Nobody thinks the world is flat today, when it comes to income.

There's other fresj evidence of globalization breakdown. China's house organ Global Times noted Unilateral sanctions add to evidence that it's no longer safe to hold assets in US. While that may seem obvious, it's one thing in China to think it and quite another to start making policy statements/official warnings. From the article:

ZHANG: I grew up in Shandong Province in northern China, the same area where Confucius was born 2,000 years ago. My rural county has 1 million people. I went to Shanghai for college and got my Ph.D. in agricultural economics from Ohio State. I stayed in Columbus for six years and in Ames for seven years, where my older and younger daughters were born, respectively.

In a previous post, I talked about culture.I'd like to expand on that post here, and go into more detail on the characteristics of culture. There are many definitions of culture, but the most famous one is from E. B. Tylor in 1871, which says culture is "that complex whole which includes knowledge, belief, art, morals, law, customs, and any other capabilities and habits acquired by man as ...

Earlier this week we took one of our cars to be serviced at the dealership. There were no cars in their lot. We were told they had no inventory. We're only a month or so from when the major auto manufacturers shut production down for a couple of weeks while they prepare for the new model year. I wonder what's going to happen with layoffs then.

An invasive species is an introduced organism that becomes overpopulated and harms its new environment. Although most introduced species are neutral or beneficial with respect to other species, invasive species adversely affect habitats and bioregions, causing ecological, environmental, and/or economic damage. The term can also be used for native species that become harmful to their native ...
