How NIOSH Conducts Risk Assessments | NIOSH | CDC

Employers must conduct a hazard assessment to determine if hazards for which workers need PPE are present, or

Read Free Osha Risk Assessment Guidelines

are likely to be present. OSHA's PPE standards external icon (29 CFR 1910 Subpart I) require employers to select and provide appropriate PPE to protect workers from hazards identified in the hazard assessment. The results of that assessment will be the basis of workplace controls (including PPE) needed to protect workers.
