For an even money bet, the Kelly criterion computes the wager size percentage by multiplying the percent chance to win by two, then subtracting one. So, for a bet with a 70% chance to win (or 0.7 probability), doubling 0.7 equates 1.4, from which you subtract 1, leaving 0.4 as your optimal wager size: 40% of available funds.

Career. Kelly Sue DeConnick was first introduced to the comics industry by writing copy for photos in adult magazines. She eventually moved on to posting her own stories on a message board for fellow comic book author Warren Ellis. He invited her to work on his new website at the time, artbomb.net, where she wrote catalog entries for comic-book issues.
