A number of changes in interest groups have taken place over the last three or four decades in the United States. The most significant change is the tremendous increase in both the number and type of groups. [4] Political scientists often examine the diversity of registered groups, in part to determine how well they reflect the variety of interests in society.

Textbook affordability is a growing concern in the US higher education context. A study conducted by the Florida Virtual Campus found that more than 70 percent of student respondents reported spending at least \$300 on textbooks during the spring 2016 term. 1 Compared to a previous survey, 2 there was a decrease in the "\$0-\$100" cost category from 9.8 to 8.2 percent, while the "\$601 or more ...
